Note: If necessary, continue on additional page(s), which must be identified by the Leisure Accommodation Vehicle Periodic Inspection Report serial number and page number(s). Where observations are made, the inspector will have entered one of the following codes against each observation to indicate the action (if any) recommended:

- 'requires urgent attention' or 'requires further investigation' or
- 4 12 'requires improvement' or does not comply with BS 7671'

Please see the reverse of this page for guidance regarding recommendations.

Urgent remedial work recommended for Items: 0

J. NEXT INSPECTION

(Entry should read either 'Satisfactory' or 'Unsatisfactory')

Satifactory

12-03-12

Date of previous inspection:

NA

Installation Certificate no. or Periodic Inspection Report no.:

N

If yes, estimated age: NOT AVAILABLE

2

years

Note: If necessary, continue on additional page(s), which must be identified by the Transportable Building Periodic Inspection Report serial number and page number(s).

I/We recommend that this installation is further inspected and tested after an interval of not more than:

1 YEAR

(Enter interval in terms of years

or months, as appropriate)

provided that any item at H which have been attributed a Recommendation Code 1 (requires urgent attention and Code 2 (requires improvement) are remedied without delay and as soon as possible resectively, Items which have been attributed a Recommendation Code 3 should be actioned as soon as practicable (see H).

Corrective action(s) recommended for Items ()
